Increase energy in the  
management team and  
improve relations

Focus on key people to  
implement positive change

### CASHFLOW

Improve cashflow and  
working capital  
management

### REPORTING

Quality financial information  
enabling timely and informed  
decision making

### RISK

Enhance risk management

Implement risk action plan  
and embed change

“

We have been impressed by Menzies blend of attention to detail and commercial acumen. We engaged Menzies Advisory to review one of our business units and provide us with their findings. The delivery, insight gained, and follow up support has lead us to engage other Menzies tax advisory and statutory services. It's clear the team genuinely care about us and the business, and are tenacious in their approach to help us grow and be successful. They understand what's important to us as a family and management team, which is really crucial for any partnership.

**Hugh Wells, Managing Director, AJ Wells & Sons Limited**
